

# The All-Digital TV World is Here!

ElbertonNET has begun the transition to an All-Digital TV service. **What does that mean for you?**

Televisions without a set-top digital box supplied by ElbertonNET will no longer be able to receive Basic, Expanded, or Premier television service. You should contact us by phone at **(706) 213-3278** to arrange for the equipment needed to continue receiving services.

We will bring the digital set-top boxes to you and install them in your home. Each TV in your home will require a digital set-top box to receive a TV signal. The first 2 digital boxes in your home are FREE! For each set-top digital box over 2 that you require in your home, there is a one-time box fee of \$45.00. Plus, each digital box over 2 in your home will incur a monthly fee of \$3.95 each. If you have 2 digital boxes or less in your home, there is no additional charge to you! We are scheduling appointments *NOW* for July and August delivery.

## The Digital Difference: **Why is Digital better?**

- Sharper Picture Quality especially with High Definition TVs
- Improved Audio Quality
- More Efficient Signal Format

### **TODAY**

ElbertonNET currently delivers your cable service via analog signals which have maxed out the cable bandwidth.

### **COMING SOON!**

By comparison, digital signals take up far less room, enabling ElbertonNET to offer more choices and faster Internet speeds.

## Get more options today: **Why change now?**

ElbertonNET's set-top boxes include a built-in digital video recorder (DVR) at no additional charge, *while supplies last*. Receive the digital signal and record your favorite movies, sports, and shows to watch on your schedule.

- Record hours of TV
- Pause and rewind live TV
- Enhanced Interactive OnScreen TV Guide
